

Automatic V Airblade Hand Dryer

Model: ASH-VJ (G)

2 Years warranty on sensor, control circuit & motor

**Consumes only 1250 W
75% energy savings v/s conventional hand dryer**

Compact design

Heavy Duty Design for all types of facilities

Made-in-India

High Quality Eliminates Breakdowns & Maintenance Costs

Industry Best Safety Features

95% Cost Reduction Compared to Paper Towels

Model: ASH-VJ

00:12

High Velocity Air Blades Dry Hands in 12 Secs

Fire retardant plastics

Does not use heating coil

Anti-microbial additives in plastics for utmost hygiene

HEPA filter access from outside for easy replacement

Solid State Relay eliminates arcing & increase product life

Smartly uses heat energy of motor to aid in drying hands

Heavy duty through flow vacuum motor - 30000 RPM

HEPA filtration blows clean filtered air on hands

Safety & Anti-Vandalism Features:

- 45 secs auto cut-off timer with 30 secs safety shutdown feature to prevent misuse & vandalism
- Motor equipped with thermal cut-off for overheating protection

Specifications for Hand Dryer Model ASH-VJ

Model: ASH-VJ (G)

Model: ASH-VJ

Dimensions:

Specifications:

- Material: High impact fire retardant polycarbonate with silver ion technology for life time anti-microbial protection.
- The hand dryer takes in air through HEPA filters which remove 95% of the impurities from hands before blowing it on the hands.
- Motor: 30,000 RPM through flow vacuum motor
- No heating element. Smartly uses the heat energy from the motor to aid in drying hands.
- Two IR sensors for reliable sensing.
- Size : H 280 x W 210 x D 143 mm
- Type : V Jet • Power Consumption : 1250 W
- Power Consumption in standby: 1W
- Drying time: 12 seconds
- Max. Air Temp. at Outlet : 50°C
- Energy Consumption per drying cycle of 12 seconds : 0.004 Kwh / 15 KJ
- Electrical Input Supply : 230VAC, 50Hz, 1 (10A, 3 pin, ISI certified cord wire provided)
- 45 sec auto cut-off with safety shut down feature*
- Air Speed: 100 m/s • Air Volume: 103 m³/hr
- Operating Noise Level : 80 db @ 1 mtr

*Safety Shut down feature:

After 45 seconds of continuous use, the hand dryer will enter into safety shut down mode for 30 seconds. During these 30 seconds, the hand dryer will not start even if an object is present in front of the sensor. After 30 seconds, the sensor will check if the object has been removed. If not, the hand dryer will not start till it is removed.
